

POS and Inventory Control for Liquor and Tobacco Stores

*Key Features and Benefits for the Unique Needs
of Merchants Selling Alcohol and Tobacco Products*

Sale of alcohol and tobacco products introduces a variety of unique challenges to merchants. The Keystroke POS system provides the speed needed for handling peak sales periods, simplicity for part-time help, and special features to help you manage high turnover inventory with exceptionally tight margins.

Whether you run a friendly neighborhood store, a full-service discount store or manage multiple retail locations, the Keystroke POS system will provide you the very latest technology needed to efficiently operate your beer, wine, liquor or tobacco business today.

Made to Help Your Business Flow

- Fast POS sales entry – Easy price lookup – Both touch-screen and keyboard friendly.
- Age verification reminders.
- Barcode scanning & printing (item and shelf tags).
- Built-in time clock and complete activity audit trail. Log in with ID or fingerprint and password.
- Powerful scripting feature to suggest alternate and add-on sales – e.g., “If you like this, you should try that!”
- Increase sales and improve store image – display POS data and upsell advertising to customers at checkout using powerful new Digital Sign feature.
- Complete inventory, customer and vendor history.

Ready to Flow with Your Business!

- Start with one workstation – add registers as needed.
- Basic and advanced reporting capabilities.
- Special features to monitor physical inventory and record quantity variances. Wireless hand-held computers for mobile tasks such as physical inventory counts.
- Multi-level pricing by customer type, quantity, mix & match, and date/time limited sales promotions.
- Fast and secure electronic payment processing with competitive rates and free gift card processing.
- Comprehensive polling and reporting for multiple locations.
- Flexible re-order points and fast inventory receiving.
- Links with QuickBooks®, Peachtree® by Sage, and others.
